# Our College

Unity,

Purpose,

Collaboration

# Vision & Mission

Miami University's College of Engineering and Computing seeks to educate technology leaders who will have a positive impact!

Our graduates will use their engineering, and computing knowledge to confront the grand challenges facing the world.

Their technical education is combined with the liberal arts and other disciplines to produce creative, entrepreneurial, and impactful solutions.

# Strategic Priorities

Recruitment &  
Retention

Lead in DEI  
among  
engineering &

# Dr. Keith Hohn

**COLLEGE OF ENGINEERING  
AND COMPUTING**

*Department of Chemical, Paper,  
and Biomedical Engineering*

# CPB Department

- **ABET Results**

- Weakness noted for BS in Biomedical Engineering related to engineering design
- Concern noted for BS in BME around composition of CPB faculty
- Concern noted for BS in Chemical Engineering related to engineering design

- **Search Update**

- Assistant Research Engineer – Applicant Screening in Progress

- **New Initiatives**

- Clinical engineering MS program approved, recruiting underway
- Regulatory affairs course (CPB 452) being offered for the first time, taught by two Stryker professionals (Katie Suprenant, John Rossman)

# Dr. Eric Bachmann

**COLLEGE OF ENGINEERING  
AND COMPUTING**

*Department of Computer Science  
and Software Engineering*

# CSE Department

- **ABET Results**

- No deficiencies or weaknesses noted for the BS in Computer Science and BS in Software Engineering degrees
- Single Concern for both degree programs regarding challenges around hiring and retaining faculty

- **Search Update**

- Tenure Track – On campus interviews in progress
- TCPL - (two separate searches) Applicant screening in progress
- Cybersecurity Director – Screening will begin in February

- **New Initiatives**

- Recruiting for new BA in Computer Science and Master of Computer Science
- BS in Cybersecurity – Period for public comment ending Jan 24<sup>th</sup>
- New Visiting Assistant Professor – Dr. Benjamin Cecchetto

# Dr. Qihou Zhou

**COLLEGE OF ENGINEERING  
AND COMPUTING**

*Department of Electrical  
and Computer Engineering*

# ECE Department

- **ABET Results**
  - Computer Engineering accredited without concerns
  - Electrical Engineering accredited without concerns
- **Search Update**
  - Chair Search Chaired by Tim Cameron
  - Assistant/Associate Tenure Track
  - Lab Tech./Coordinator
- **New Initiatives**
  - ABET review for Robotics after spring graduation

# Dr. Fazeel Khan

---

**COLLEGE OF ENGINEERING  
AND COMPUTING**

*Department of Mechanical and  
Manufacturing Engineering*

# MME Department

- **ABET Results**

- Mechanical Engineering: One Concern
- Manufacturing Engineering: One Weakness

- **Search Update**

- Tenure track position – campus interviews to begin this month
- TCPL position - campus interviews to begin this month

- **New Initiative**

- MCH Curriculum – Addition of one new thematic track (Thermal-Fluids, Dynamics and Controls, and Mechanics)
- Smart Manufacturing Initiative

## Graduate & Research Update

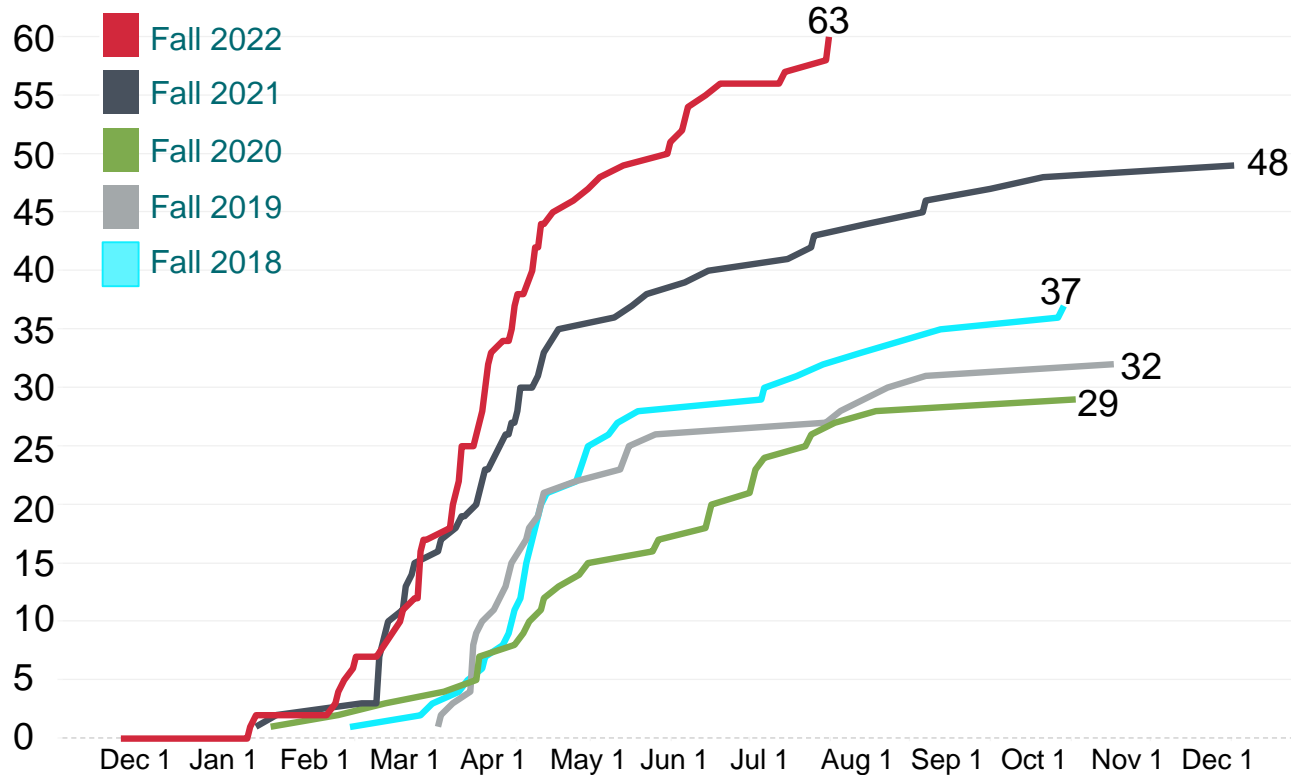

# Graduate Programs

Fall Semester Report  
(BI)

# Confirmed Graduate Students

As of 17 January 2023

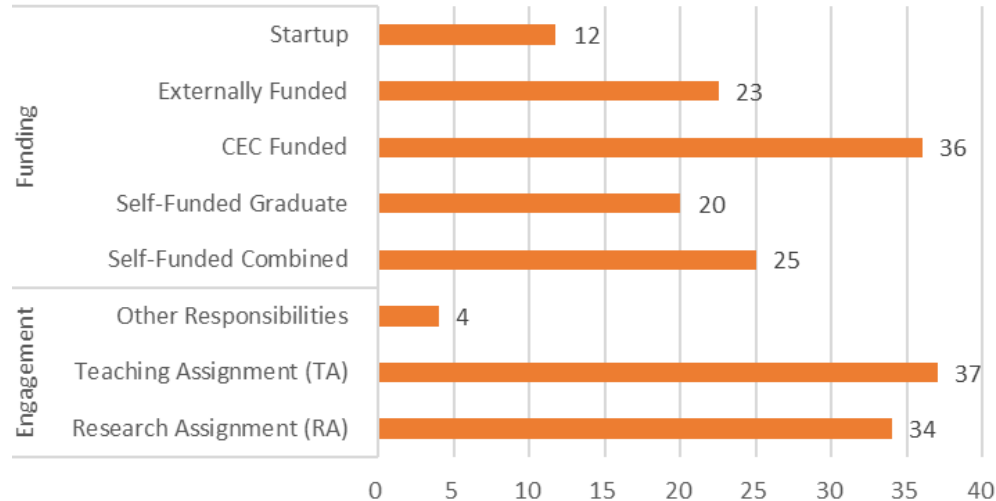

Total Application: 80  
Admitted: 11  
Confirmed: 6

As of 17 August 2022

# Graduate Assistantships

**2021-2022**

## Student Funding and Engagement

- GA allocation were made based on the CEC budgeted support of up to **38 GA**
- Increased from ~22-28
- 57% of ENG budget is to support GAs and tuition waiver

# Graduate Program Directors

**Dr. Amy Yousefi**  
Chemical, Paper, and  
Biomedical Engineering

**Dr. Chi-Hao Cheng**  
Electrical and Computer  
Engineering

**Dr. Muhammad Jahan**

Software Engineering

# CEC Research Clusters

- 5G/6G Mobile Technology
- IoT – Internet of Things
- Wireless Network Security
- Remote sensing
- Wireless Sensor Networks
- Radar Signal Processing

## Advanced Communications and Networks

- Computer Vision
- Chem-Informatics
- Molecular Simulation
- AI in Cybersecurity
- Machine Learning
- Parallel & Distributed Computing
- Quantum computing

## Artificial Intelligence & High Performance Computing

- Wearable Technology and Signal Processing
- Biomedical Imaging
- Human Postural Dynamics
- Virtual Manipulations
- Power electronics for electrified transportation
- Solar and renewable energy
- Fuel Cell & Metal Oxides

## Assistive & Sustainable Technology

- Protein Engineering
- Health Data Analytics & Bioinformatics
- Synthetic Biology
- Bio-sensors
- Drug Delivery
- Metabolic Engineering
- Tissue Engineering

## Biomedical Engineering and Biotechnology

- Biocompatible Polymers
- Cellulosic materials
- Phononics and Acoustic Metamaterials
- Surface engineering & Micro & Nano tribology
- Material Genome
- Smart Materials
- Semiconductor fabrication and packaging

## Engineered Materials

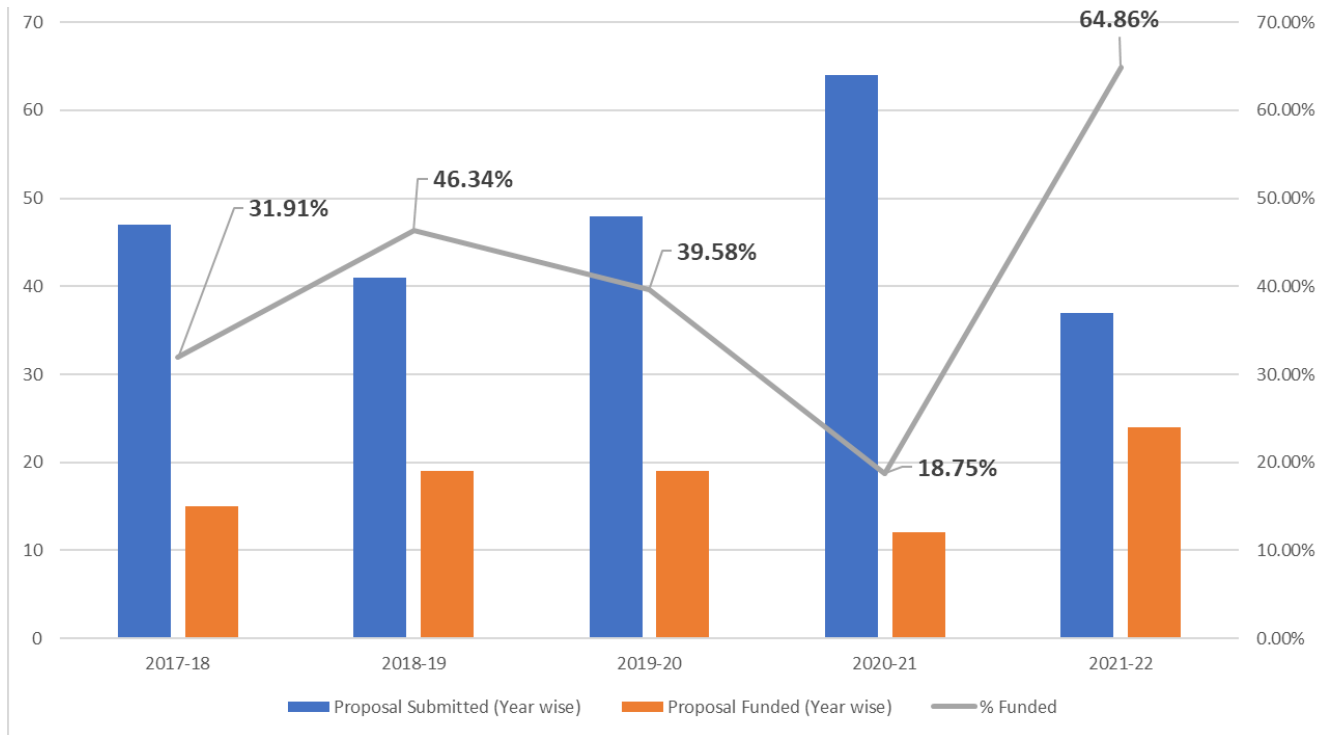

- Additive Manufacturing/ 3D printing
- Micro & nano machining
- Friction Stir Welding
- 4D printing of smart materials
- Autonomous Vehicles
- Human Machine Interaction
- RF sensors
- Control Design

# Opportunities and Challenges

## Opportunities

- High demand for graduates in CEC
- Cross-divisional degree offerings & research collaborations
- Graduate programs
- Committed alumni, staff, faculty
- Excellent research credentials of faculty
- Corporate funding
- Discipline specific fee

## Challenges

- Demographic decline
- International student enrollment
- Miami Plan
- Retention of faculty, staff & students
- Fragmentation and duplication of programs
- Lack of emphasis on graduate programs
- Bureaucracy
